- BioTress[®]
- Vitamin C range
- BioActivated B
- UltraLiv

Rhodiolife[®] is a sustainably sourced Rhodiola extract, wild-crafted in the Altai region of Siberia.

Good collection practices ensure that only older roots are harvested, and repeat harvesting from the same locality is done on a 5-year rotation to allow sustainable re-establishment of the wild plant populations. Audits are carried out on the collection process and storage facilities on-site in Siberia on a regular basis.

Product Highlights

Contains Rhodiolife[®], a sustainable, standardised extract of Rhodiola
